FREE EXTENDED WARRANTY AND USED VEHICLE BLOW OUT SALE!

Now through October 31st!! We have a great selection of vehicles in stock. Because new car sales have been so strong this year, we have taken in on trade a ton of used vehicles on trade. We simply have too many...most of which are super-clean one owner trades. The selection is great...everything from Hondas and Toyotas to Jeeps and Chevys. Need something good on gas? Have a look at our 2008 Ford Escape Hybrid. How about something sporty? We have closeout pricing on a 2005 Saab 9-3 Convertible and a 2010 Chevy Camaro SS.

Jason Emmett
Sales Manager

PLUS, through the end of the month, receive a FREE 12 month, 12,000 mile limited warranty with EVERY used vehicle purchase! No games, no gimmicks...we didn't inflate the price of our used inventory to account for this great offer. This is a direct savings to you! Come see us today!

BEFORE WINTER SETTLES IN, NOW IS THE TIME FOR OWNERS TO GET THEIR VEHICLES INTO SHAPE!

Now is the time to prepare your vehicle for the upcoming winter-driving season, Preventative maintenance helps vehicles perform at optimum levels in a variety of conditions.

With original-equipment Mopar parts, our factory-trained technicians provide full service to Chrysler, Jeep®, Dodge, Ram and SRT. With the addition of proven, quality-tested parts from Magneti Marelli, we also service all domestic and most import vehicles as well.

Frank Prevett
Service Manager

Mopar's Fall Car-Care Checklist

- 1: Brakes-check pads, shoes, rotors, drums, calipers, wheel cylinders, hardware & parking brake
- 2: Tires-Closely inspect the tread and sidewall areas of tires for uneven or irregular wear.
- 3: Battery-Test and replace battery if necessary.
- 4: Wiper Blades-Winter driving conditions challenge your ability to see the road.
- 5: Shocks & Struts-check to optimize vehicle handling, tire life and keep vehicles riding smoothly.
- 6: Engine Oil-Ensure your engine oil has the correct viscosity in order to endure cold weather.
- 7: Fluid Levels-All vehicle fluids and lubricants should be checked and changed at factory-recommended intervals.
- 8: Engine Belts and Hoses-Replace belts and hoses at recommended intervals.
- 9: Air Filter-A new air filter allows clean, unrestricted air flow into the engine & helps ensure proper performance for a longer life.
- 10: Head & Tail lamps-Inspect & test all lamps on your vehicle to ensure function & alignment.
